

Public Polling Methodology Statement: YouGov

Publication date: 18 Nov-23

Short Methodology Statement	
Research company	YouGov Galaxy Pty Ltd
Client commissioning the research	
End client	
Fieldwork dates	10 November to 14 November 2023
Mode of data collection	Online recruited from research panel (100%)
Target population	Australians who are eligible to vote
Sample size	1582
Australian Polling Council compliant	Yes
URL of Long Methodology statement	https://au.yougov.com/results/apc
Is voting intention published?	Yes

Long Methodology Statement	
Effective sample size after weighting applied	929
Margin of error associated with effective sample size	±3.2
Variables used in weighting	Age x gender x location, Age x education, AEC region x household income, past vote
Weighting method used	Rim weighting
Full question text, responses categories and randomisation	See below
Proportion of landline/mobile completed interviews	N/A
Source of online sample	Selected from previously recruited online panels of research participants to fill quotas loosely based on weighting frame and past vote
Positioning of voting intention questions in questionnaire?	Immediately after demographics
How were undecided voters handled?	Undecided respondents who answered “don’t know” were asked a leaner question which also included a “don’t know” option. Those who answered don’t know were excluded from published voting intention figures but not from the survey. 8% were thus excluded from published voting intention figures.
2PP calculation method	Calculated according to preference flows at previous federal and state elections

Full Question Text of Published Questions

YouGov is a member of the Australian Polling Council and complies with its Code of Conduct as it pertains to the public release of polling data. The purpose of this Code is to increase public confidence through greater transparency.
